Professional Summary

Third-year Computer Science Engineering student with hands-on experience in MERN stack development. Skilled in designing responsive user interfaces, integrating RESTful APIs, and optimizing web applications for performance and usability. Strong team player with effective problem-solving skills.

Education

St. Joseph's Institute of Technology, Chennai

BE-Computer Science and Engineering

Expected Graduation: 2027

CGPA: 8.94/10

Government Girls Higher Secondary School

Higher Secondary School

2023

Percentage: 88.5%

Technical Skills

Languages: Java, JavaScript, C
Web Development: HTML, CSS, React.js, Node.js, Express.js, REST APIs
Tools & Platforms: Vercel, Figma, Git, GitHub, Postman
Databases: MongoDB, SQL
Core Skills: Data Structures and Algorithms, OOPS.

Experience

Frontend Developer Intern

July 2025 – September 2025

ZUNTRA Digital (Offline, 3 Months)

- Developed a responsive Human Resource Management System for 50+ users, improving cross-device accessibility and dashboard usability.
- Built reusable, scalable components and collaborated with teams to ensure 100% on-time feature delivery.

AI/ML Intern

February 2026 – April 2026

Infosys Springboard Virtual Internship 6.0 (Batch 13) – ReviewSense

- Developed an AI-powered customer feedback analysis system to process and analyze 5,000+ customer reviews using sentiment analysis and NLP techniques.
- Built an interactive Streamlit dashboard with real-time filtering, keyword insights, and trend visualization, improving feedback analysis and user decision-making efficiency.

Projects

AI-Enhanced Expense Tracker Application

[Live Demo](#) | [GitHub](#)

- Built a full-stack expense management application with AI-driven smart search, receipt image processing, and voice assistant to simplify expense tracking.
- Architected secure data workflows and reusable modules to support scalable and maintainable application development.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, AI Integration, GitHub Actions.

AI-Powered Citizen Grievance Redressal Platform

[GitHub](#)

- Created an AI-powered grievance management system with automated complaint classification, priority prediction, and smart department routing.
- Designed role-based dashboards with automated officer assignment, real-time tracking, notifications, and analytics for civic issue management.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Machine Learning, YOLOv8, Whisper.

Achievements

- Solved 200+ coding problems on [LeetCode](#) and completed 75 Days of DSA Challenge.
- Participated in 10+ hackathons and technical symposiums, contributing to innovative project development and collaborative problem-solving.
- Received a Certificate of Merit and Rs.10,000 cash prize for securing a 9+ CGPA.
- IEEE Student Member, actively participating in technical workshops, hackathons, and symposiums.

Certifications

- Web Development:** Meta Front-End Developer Professional Certificate [\[link\]](#)
- MongoDB:** MongoDB Certified Associate Developer [\[link\]](#)
- NPTEL:** Python for Data Science, DSA Using Java, Database Management Systems, Design Thinking [\[link\]](#)
- Cisco:** Networking Basics [\[link\]](#), **Cambridge English:** Linguaskill Business English (B2 Level – 164/180) [\[link\]](#)
